## VA SCHEDULES FLU CLINICS ON AND OFF CAMPUS

**(BUTLER, PENNSYLVANIA)** – VA Butler Healthcare will be offering flu vaccine clinics to community veterans at the facility's main campus and at other community locations within the facility's service area. Below is a schedule of flu clinic dates, times and locations. Veterans not currently registered at the facility, or who have not received the flu vaccine from the VA in previous years, must bring a copy of their DD 214 as verification.

The Visiting Nurses Association will be present at most of these locations to provide flu shots to veteran spouses. With the exception of the Flu Clinics in Clarion County on October 1 and 2, the following applies. Cost to veteran spouses would be \$30 (after a 15% discount) payable that same day in cash or check. However, veteran spouses who have Medicare Part B, Security Blue, Freedom Blue, UPMC For Life (Medicare Specialty), UPMC For You, Gateway Medicare Assured, Gateway and Over 21 as their primary insurance will not incur an out of pocket expense. Veteran spouses who have Medicare Part B must be prepared to show proper insurance identification. The pneumonia vaccine will be available upon request from the Visiting Nurses Association of Butler County.

For the Clarion County flu clinics on October 1 and 2, The Visiting Nurses Association for that area accepts the United Mine Workers The Funds and Medicare Part B. Veteran spouses must be prepared to show proper insurance identification. Cost to veteran spouses would be \$25, payable that same day in cash or check.

For more information about the flu clinics, please contact VA Butler Healthcare at 724-287-4781 or toll-free at 1-800-362-8262.
